Tools for Planning Out-of the-Box Prevention Programming

Guidelines for the Primary Prevention of Sexual Violence & Intimate Partner Violence: Virginia Sexual & Domestic Violence Action Alliance

A synthesis of prevention research, practical implementation experience, and the public health perspective, and offers an "organizing philosophy" to shape primary prevention strategies. This includes detailed examples and guidelines for implementing sexual violence primary prevention strategies with examples that address risk and protective factors, as well as all components of the social ecological spectrum.

Using Logic Models for Planning Primary Prevention Programs: California Coalition Against Sexual Assault

This recorded web conference introduces logic models as a tool for program planning. The information provided will enable educators to describe the role of logic models in program planning and evaluation and know how to use logic models to streamline and improve prevention programming.

Tips for Writing Goals and Outcomes: California Coalition Against Sexual Assault

This guideline will assist educators in composing well written goals by following the S.M.A.R.T. guidelines: specific, measurable, attainable, realistic/relevant, and timely.

Using Logic Models to Bring Together Planning, Evaluation, and Action: Logic Model Development Guide: W.K. Kellogg Foundation

This guide contains four chapters and two comprehensive appendices to assist preventionists in using logic model approaches for more effective programming.

An Introduction to Community Development: Activation to Evaluation: Washington Coalition of Sexual Assault Programs

This resource includes a comprehensive overview of the community development process, guidelines to selecting the right prevention strategy, a hands-on prevention action plan, and guidelines for effective and meaningful evaluation.

VetoViolence Prevention Tools & Training: VetoViolence

This is a collection of interactive and free web-based tools, designed to support violence prevention efforts, ranging from trainings on the principles of primary prevention to an interactive evaluation plan and logic model builder.

Primary Prevention and Evaluation Resource Kit: Pennsylvania Coalition Against Rape

Divided into four volumes, this resource kit is intended to support preventionists in building upon what they are already doing to evaluate their programs.
