Objectives

- Describe the principles of prevention;
- Describe what the principles of prevention look like on campus;
- Identify possible strategies to engage campuses in effective prevention

Who's in the room?

What's the current landscape?

It's feeling a little bit like this...right?

Which makes programs in a box appealing

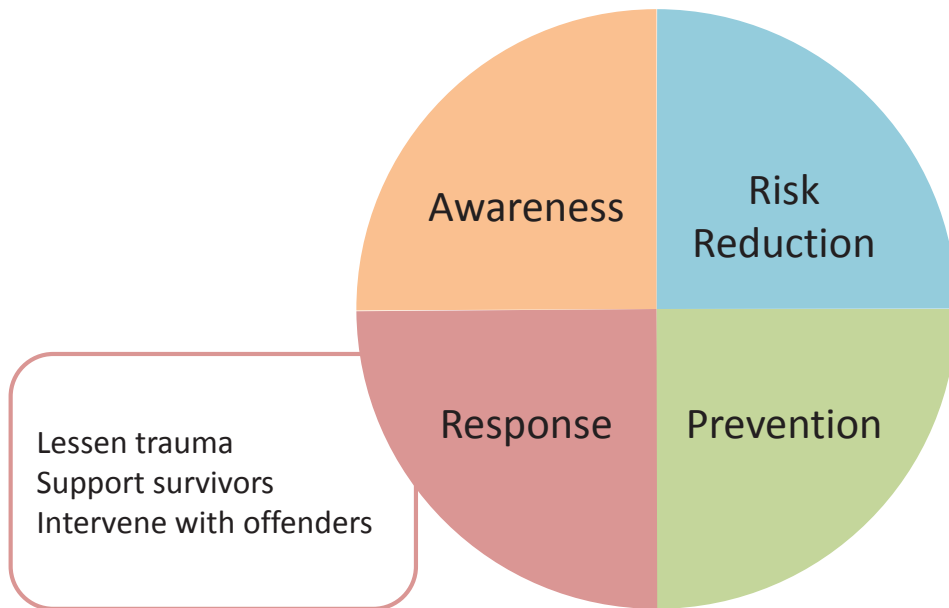

But we know prevention is a process

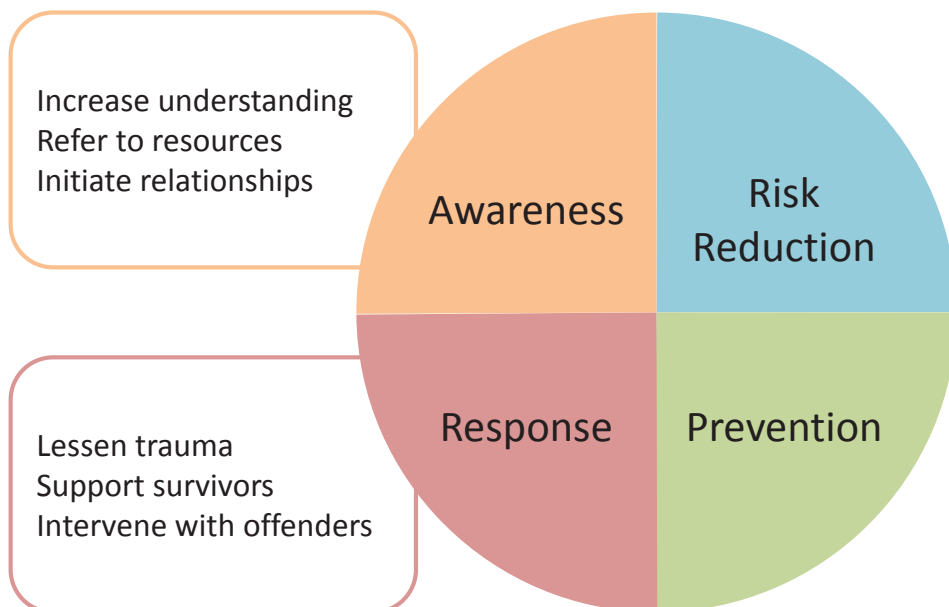

A Comprehensive Approach

Principles of Effective Prevention

Comprehensive	Sufficient Dose	Appropriately Timed
Socio-culturally Relevant	Positive Relationships	Varied Teaching Methods
Theory-driven	Skilled Trainers	Evaluation

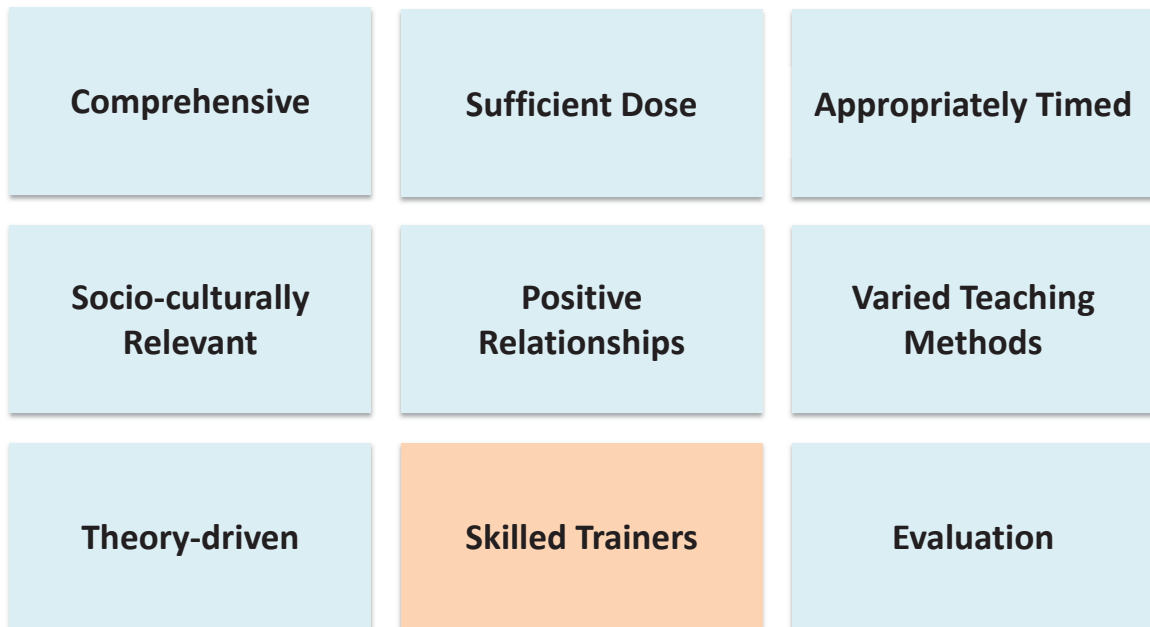

(Nation et al., 2003)

Discussion

Were any of the principles more challenging than others to implement in these examples?

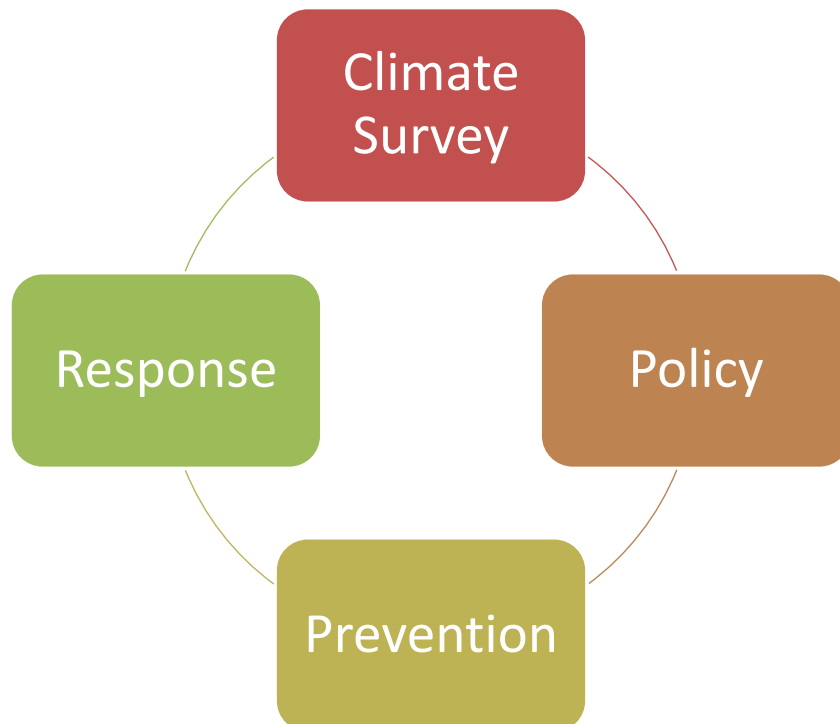

What were practical examples of thinking outside the box you may be able to approach in your programs?

Have you implemented any of these strategies?
