Description:

The National Resource Sharing Project (RSP) and the National Sexual Violence Resource Center (NSVRC) have developed two assessment tools to assist those working with victims of sexual violence in identifying strengths and strategies to improve their practice. The Personal Assessment tool will help individual advocates to reflect on their own services, knowledge and relationships with community partners. The Organizational Assessment will help organizations' leadership staff to better understand the state of their service provision overall, their entire staff's knowledge and their organization's relationships with community partners.

El Proyecto Nacional de Recursos Compartidos por sus sigla en Ingles (The National Resource Sharing Project, RSP) y el Centro Nacional de Recursos de Violencia Sexual por sus siglas en Ingles (NSVRC) han desarrollado dos herramientas de evaluación para asistir aquellos que trabajan con victimas de violencia sexual a identificar sus fuertes y estrategias con el fin de mejorar sus practicas. La Herramienta de Evaluación Personal ayudara individualmente a asesoras a analizar sus propios servicios, conocimientos y su relación de colaboración con otros servidores comunitarios. La Evaluación de la Organización ayudara a los lideres del personal a comprender el estado general de los servicios proveídos, el conocimiento completo del personal en sus organizaciones y la colaboración con otros servidores comunitarios.
